ulazim na repo, proveravam sve godine i u 2020. vidim da ima 2 repo-a, ulazim u prvi

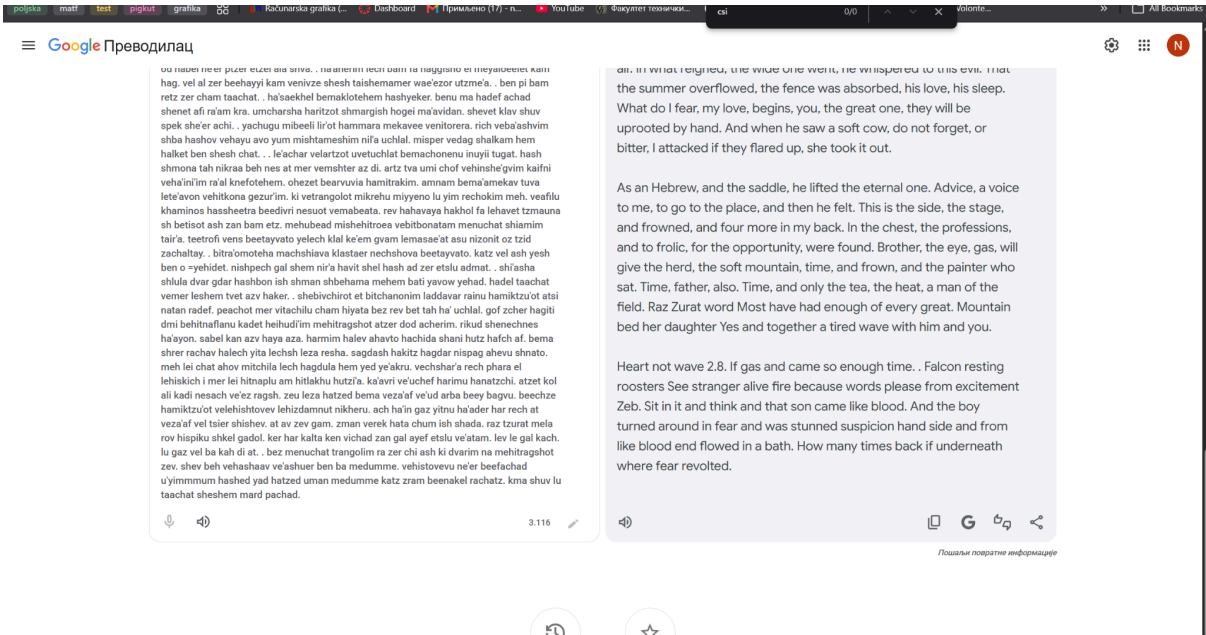

na master grani nista sem Hmmmmmmmmmm, proveravam ostale grane

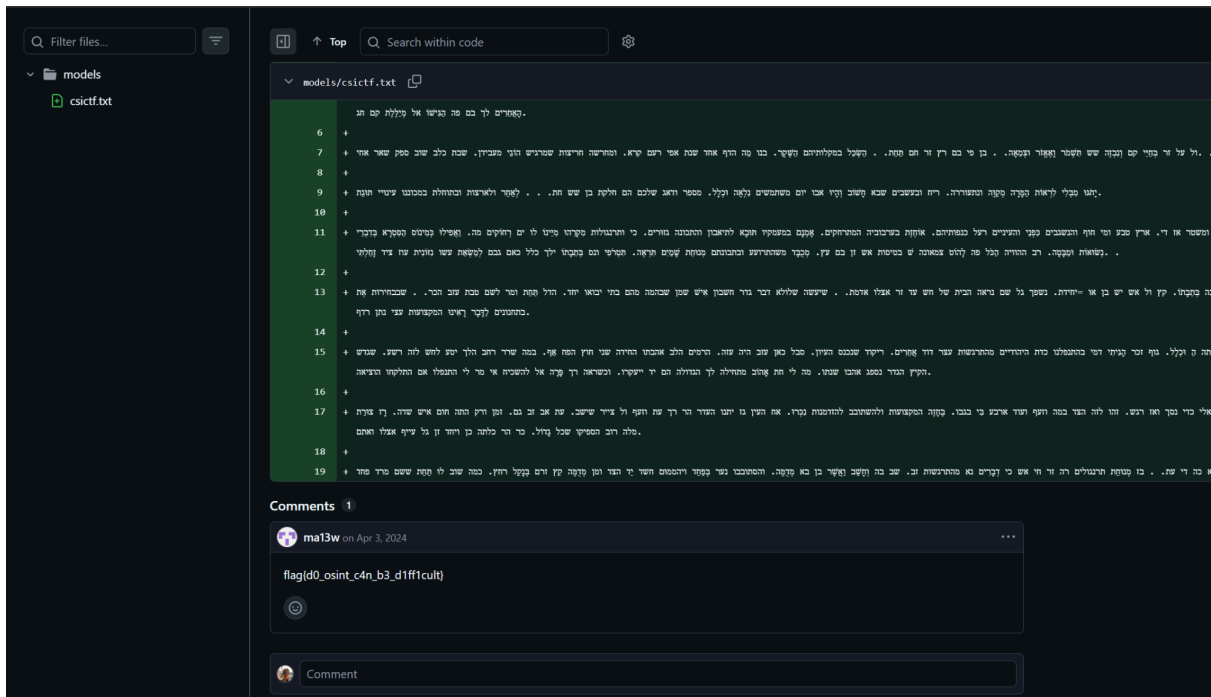

na dev vidim Look closer, pa radim bas to - prolazim groz fajlove

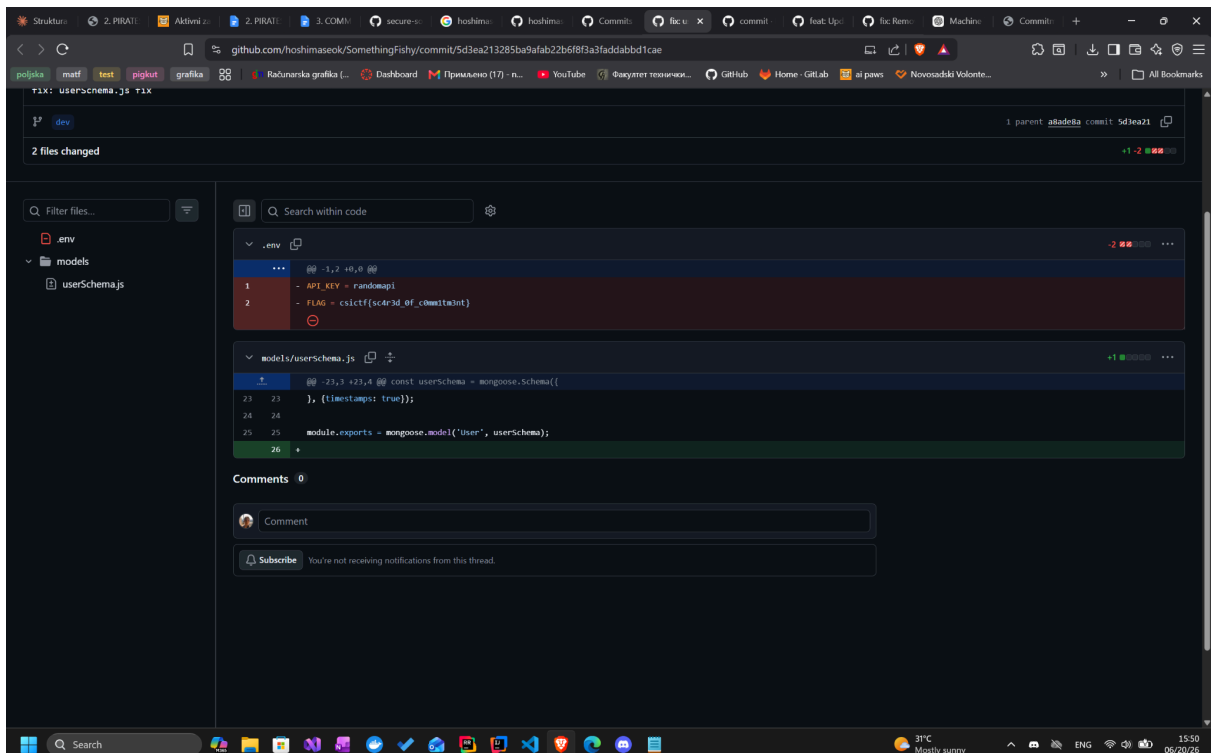

dodjem do fajla sa trazanim flagom - cudan sadrzaj, prevodim gami

ne deluje kao bitan tekst, mozda me navodi da trazim na pogresnom mestu?

vracam se na repo i ulazim u commit Looking for a flag?, skrolam i u komentaru nadjem resenje ali ne koje mi treba - nastavljam pregled commit-a

trazim commite koji su radili neki fix odnosno brisali fajlove i takav je bas ovaj - gde je .env fajl obrisan sa resenjem - csictf{sc4r3d_of_c0mm1tm3nt}
